# THE SCHNÜFFELRASEN®

**More than just a toy: Your intelligent sniff-tool.**

More than just a toy: Your intelligent sniff-tool.

### HANDLING:

- When first playing with the SCHNÜFFELRASEN®, put a couple of treats at an easily accessible spot on top of the “grass blades” or between their upper parts. This way, your dog will easily find them and pick them up.
- Stroke the surface of the SCHNÜFFELRASEN® with your palms before your dog starts sniffing so your scent can transfer. This will strengthen the positive bond between you and your furry friend.
- After your dog has become accustomed to the SCHNÜFFELRASEN®, place the treats deeper between the “blades of grass”.
- Vary treat sizes for additional alternation during playtime.
- For a dog’s nose to be working at its best, the mucosa need to be moist at all times. Water should always be available.
- Accompany your dog during SCHNÜFFELRASEN®-time and offer your support if it should need any help.

By spending time together, the relationship between you and your dog will intensify in a fun way. You will grow to better understand your pet, strengthen its trust in you and fortify your bond.

7 – 10 minutes of play time a day can already suffice to appropriately occupy your dog, depending on the pet’s fitness.

Your SCHNÜFFELRASEN® bonus: After all the excitement and fun of sniff and play, the SCHNÜFFELRASEN® will also serve as a cuddly blanket.
